A History of Barbados-Hilary McD. Beckles 2006-11-16 Highly acclaimed when it first appeared in 1990, this general history of Barbados traces the events and ideas that have shaped the collaborative experience of all the islands inhabitants. In this second edition, Hilary Beckles updates the text to reflect the considerable number of writings recently published on Barbados. He presents new insights and analyses key events in a lucid and provocative style which will appeal to all those who have an interest in the island's past and present. Using a vigorous approach, Hilary Beckles examines how the influences of the Amerindians, European colonisation, the sugar industry, the African slave trade, emancipation, the civil rights movement, independence in 1966 and nationalism have shaped contemporary Barbados.

The History of Barbados, from the First Discovery of the Island in the Year 1695, Till the Accession of Lord Seaforth, 1801, by John Poyer-John Poyer 1808

A History of Barbados-Hilary McD. Beckles 1990-09-20 As Barbados celebrates 350 years of established parliamentary government, this concise and authoritative history makes a timely appearance, covering the period from the first human settlement by the Amerindians to the present day. Social, political, and economic themes run throughout the book, including detailed aspects of early English colonization, the emergence and eventual abolition of the slave trade, and the development and growth of the sugar
industry. Professor Beckles emphasizes the struggles for social equality, civil rights, and material betterment, detailing their continuous flow through the island's history since 1627.

The "Redlegs" of Barbados, Their Origins and History - Jill Sheppard 1977

A True and Exact History of the Island of Barbados - Richard Ligon 2011-03-11 As the one major, book-length English chronicle and natural history of the Caribbean published in the seventeenth century, written at the time of experimental adoption of the sugar / African slavery complex that would come to characterise the Caribbean for two hundred years, to such disastrous effects, Ligon's True & Exact History of the Island of Barbados is a -- if not the -- central text that records and, in part, worries over this transformation.

Business in Bim - Henderson Carter 2008 In the colonial flurry of the first half of the 20th century, Barbadian businessmen fought against the pulling tide of 'King Sugar' to forge their own paths, and thus permanently altered the face of business in 'Bim'. Dr Henderson Carter's comprehensive survey, Business in Bim: A Business History of Barbados 1900-2000 chronicles the evolution of business in Barbados from the era when sugar cane cultivation and its processing dominated the economic, political and social life of the country through to the present time. The book shows how the decline of the sugar industry created opportunities for the emergence of a new merchant class which included among its members a significant number of Black business entrepreneurs. The successes of this new merchant class were etched into the facades of Swan and Roebuck Streets as tangible evidence of the industrial change that swept Barbados, and in the process created a prominent commercial centre that remains a vital part of the capital, Bridgetown, to this day. Dr Carter pays particular attention to the development and growth of Black businesses and analyses the factors that have accounted for their relatively short lifespan compared to white businesses which often survived across several generations. Through the personal profiles of the pioneering entrepreneurs the author puts a human face to the businesses they created and guided to success but oftentimes to failure as well. The role of government as a factor in the development of business enterprises in the post-independence period comes in for special focus particularly through an examination of the policies of Errol Barrow, Erskine Sandiford and more recently Owen Arthur. Business in Bim breaks new ground in the recording and analyzing of business history in the Caribbean. It will have immediate appeal for business practitioners whose enterprises remain viable and successful legacies of the early pioneering period and for many Barbadians who grew up to maturity alongside some of these companies. But beyond that, students of business and business history across the region will find this work a rich resource for case studies in Caribbean business history, entrepreneurship and government/private sector relationship.

Chapters in Barbados History - P. F. Campbell 1986 "This volume of articles from old issues of the Society's Journal is intended for the general reader. Supplementary matter such as footnotes and bibliographical information has therefore been omitted."--Preface.
**Plantation Slavery in Barbados**-Jerome S. Handler 1978

Here is the first detailed investigation of plantation slave life in Barbados from earliest times until 1838. The authors have visited slave village sites, and their intensive excavation of a slave cemetery has yielded a wealth of material pertaining to mortuary practices and other dimensions of social and material life. Handler and Lange have also examined and extensively integrated the written records to amplify and cross-check their findings. Based on the methodologies of archaeology, history, and ethnography, Plantation Slavery in Barbados explores new ways to reconstruct the culture of a social group that left few historical records. As a description of the organization and development of the plantation system in Barbados, it is a model work in the burgeoning fields of slavery studies, historical anthropology, and Caribbean history.

**A History of Money and Banking in Barbados, 1627-1973**-Eric Armstrong 2010

A History of Money and Banking in Barbados documents the development of money and commercial banking in Barbados from the date of the settlement in 1627 to the establishment of the Central Bank of Barbados in 1973. It examines the early years of barter; the introduction of British coins by the Royal Proclamations of 1825 and 1838; the issue of colonial coins (anchor money); the introduction and circulation of foreign coins; the debate over the legal tender of British silver coins and the share of the seigniorage of these coins. Armstrong examines the first banks, the Colonial Bank and the West India Bank, in the nineteenth century and the introduction of Canadian banks in the twentieth century and the expansion of Barclays Bank as well as the issue of Barbados government currency notes; the measures taken by the British government and the Caribbean governments during the Second World War to ensure an adequate supply of currency; and the agreement between Barbados, Trinidad and British Guiana (Guyana) to make their government currency legal tender in each country. Armstrong analyses the establishment and operation of the British Caribbean Currency Board and its acrimonious demise, the establishment of the East Caribbean Currency Authority, the withdrawal of Barbados from the Authority, and the establishment of the Central Bank of Barbados. Book jacket.

**Genealogies of Barbados Families**-James C. Brandow 1983

"Many of the early settlers of Barbados eventually moved to the mainland of North America and settled in Virginia, Georgia, the Carolinas, and other colonies. A son of John Winthrop, for example, was one of the original settlers of Barbados, and two of the signers of the Declaration of Independence, Lewis Morris and Arthur Middleton, were descended from men who left Barbados a century earlier. Throughout the 17th and 18th centuries, in fact, there was a continuous flow of settlers from Barbados to virtually every point on the Atlantic seaboard, with the result that many families in America today trace their origins in the New World first to Barbados." -- publisher website (December 2008).
